## **Bed Confinement Benefit**

We'll pay this benefit if, because of an accidental injury and within 90 days of the date of that injury, the Life Insured:

- has been advised by a medical practitioner to remain in bed for a substantial part of each day
- is under the continuous care of a registered nurse or under the full time care of a person acceptable to us (such a person need not be medically qualified) for a period of 7 consecutive days from the date of disablement, and
- is unable to get out of bed and walk without assistance.

The bed confinement benefit payment depends on the plan you have selected and is payable only once for any one accidental injury. For the Standard Plan the benefit is \$1,000 and for the Premier Plan the benefit is \$2,000.
