

Priority Protection Policy Enhancement Summary

24 June 2009

The Power of We

AIA.COM.AU

It is important to read this Policy Enhancement Summary together with your Priority Protection Policy Document and any other policy notices. The enhancements outlined in this document now form part of your Policy Document.

These enhancements apply from 24 June 2009. The improved features and benefits outlined below are only effective on and from this date. These enhancements will not apply to any policy where a claim is pending or where a claim is in the process of being paid. The enhancements override your existing policy terms and conditions (except to the extent where you are disadvantaged in any way, in which case the previous policy wording will apply) and are subject to any pre-existing conditions (with the exception of any increase in fees and charges).

Feature/Benefit/Description	Previous key features and benefits that applied to policies prior to 24 June 2009	Enhanced key features and benefits to apply effective from 24 June 2009
Permanent Disablement benefit		
Loss of Independence	Means – part (c) Loss of limbs and sight of one eye.	Means – part (c) Loss of Limbs and/or Sight.
Enhancement	The definition for Loss of Independence has been extended to include the loss of sight of both eyes.	
Crisis Recovery benefit		
Heart Attack	<p>Means the death of heart muscle as a result of inadequate blood supply to the relevant area. The diagnosis must be confirmed by a cardiologist and evidenced by:</p> <ul style="list-style-type: none"> typical rise and fall of cardiac biomarker blood test (Troponin T, Troponin I or CK-MB) with at least one level above the 99th percentile of the upper reference limit PLUS <ul style="list-style-type: none"> acute cardiac symptoms and signs consistent with myocardial infarction (e.g. chest pain) <p>OR</p> <ul style="list-style-type: none"> new serial ECG changes with the development of any of the following: ST elevation or depression, T wave inversion, pathological Q waves or left bundle branch block (LBBB). <p>Other acute coronary syndromes including but not limited to angina pectoris are excluded.</p>	<p>Means the death of heart muscle as a result of inadequate blood supply to the relevant area.
