PRIORITY PROTECTION

Policy Enhancement Summary

8 June 2013

Every year AIA Australia upgrades its Priority Protection benefit range to ensure that the features and benefits offered to our customers and policyholders meet their changing needs.

The latest enhancements which are being passed back to existing policyholders are listed below.

It is important to read this Policy Enhancement Summary together with your Priority Protection Policy Document and any other policy notices. The enhancements outlined in this document now form part of your Policy Document.

These enhancements apply from 8 June 2013. The improved features and benefits outlined below are only effective on and from this date. These enhancements will not apply to any policy where a claim is pending or where a claim is in the process of being paid. The enhancements override your existing policy terms and conditions (except to the extent where you are disadvantaged in any way, in which case the previous policy wording will apply) and are subject to any pre-existing conditions (with the exception of any increase in fees and charges).

The table below is a summary only and should be read in conjunction with the full terms and conditions relating to the enhanced benefits that are in the Priority Protection PDS dated 8 June 2013. This document is not a substitute and does not override those terms and conditions.
