What is the Adviser Health Portal?

The Adviser Health portal has been designed to provide Advisers with a seamless referral process, greater transparency on referral progress and outcomes, and a repository for all marketing and supporting collateral. This will give Advisers the ability to monitor referrals, understand existing referral pipelines, and follow up with customers in a meaningful way to support health referrals. The updated referral process will also remove the need to re-key adviser credentials for each referral, reducing the overall time required for each referral. With a central repository for all marketing collateral, it will ensure advisers have access to the most up to date materials for their own and clients use.

Benefits to you

- Transparency across referrals anytime/anywhere
- Reporting transparency & enhancements
- Understand pipeline and critical conversion metrics
- Removal of the need to key in AIA credentials every time a customer is referred
- Reduction in keying errors/follow-up
- Everything in the one place, i.e., Marketing collateral, referral system

How clients can benefit from the referral

A dedicated Health Insurance Specialist will spend up to 30 minutes:

- Completing a health insurance needs analysis
- Educating the client about Private Health Insurance and answering their questions
- Providing the client with a comprehensive comparison with their current cover
- Advising the client to stay with their current fund or providing the client with a tailored quote by email

Reporting Feature

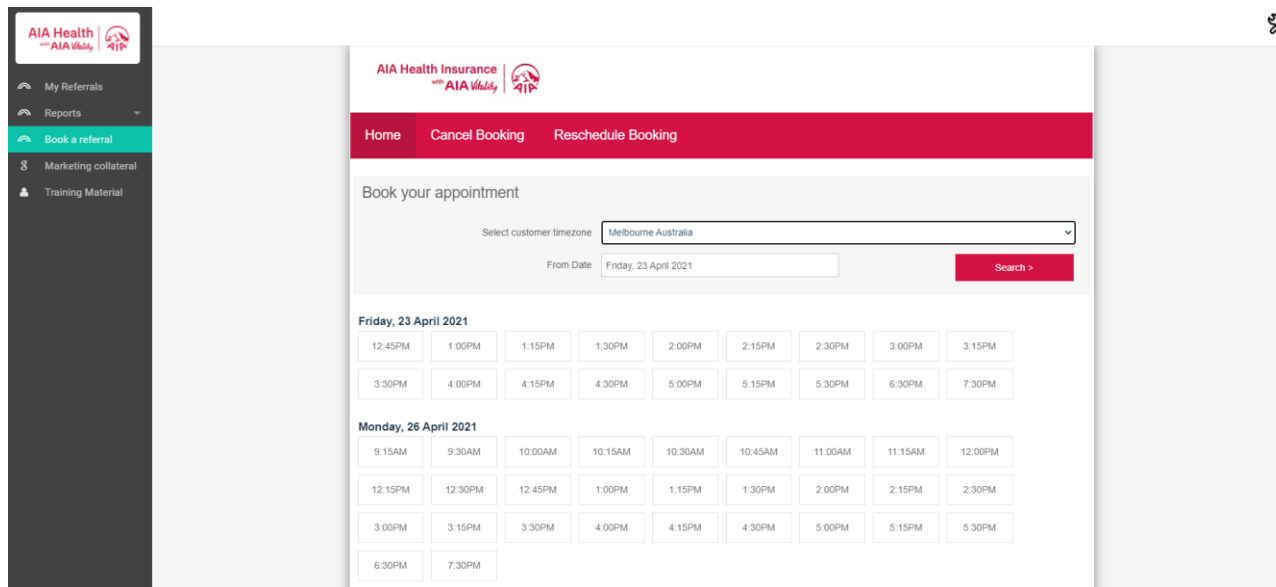

You now have access to your very own reporting dashboard under the 'Reports' tab, which details your referrals year-to-date and month-to-date along with conversion states and estimated referral fees earned.

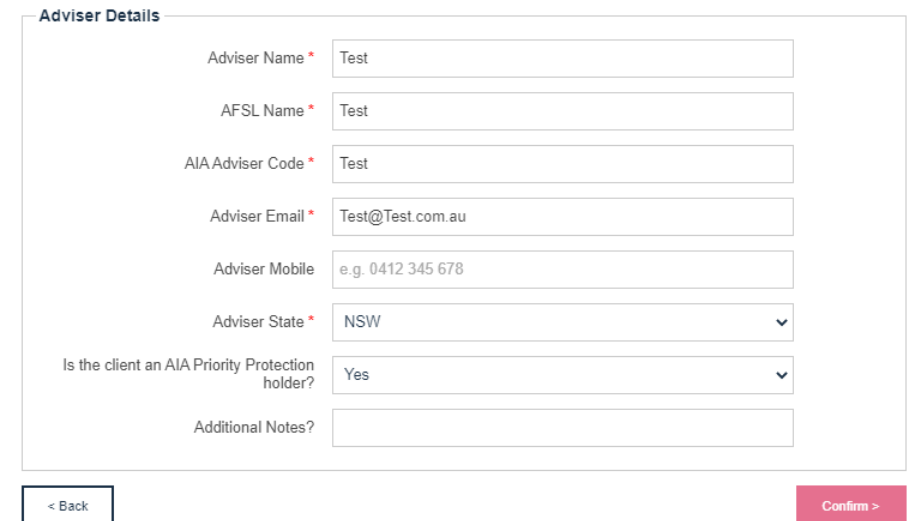

Booking a Referral Feature

You can book your clients in for their Private Health review directly via the Adviser Health Portal. Click 'Book Referral', select the customer time zone, set a date and time by clicking on the available times, enter your client's details and follow the prompts. Your adviser details will pre-populate, which saves you time entering in your details. Confirmation of booking and reference number will be provided.

Remember, you can reschedule or cancel existing appointments via the 'Book a referral' tab.

The screenshot shows the 'Book your appointment' interface. At the top, there's a navigation bar with 'Home', 'Cancel Booking', and 'Reschedule Booking'. Below this, a form allows selecting a customer time zone (currently 'Melbourne Australia') and a date (currently 'Friday, 23 April 2021'). A 'Search >' button is present. The main area displays a grid of available appointment times for two dates: Friday, 23 April 2021 and Monday, 26 April 2021. The times are listed in 15-minute slots.
